Govt. Notice No. 268

**NOTIFICATION FOR THE PUBLIC DISCLOSURE
OF THE ENVIRONMENTAL, SOCIAL AND
HEALTH IMPACT ASSESSMENT OF THE SIERRA
RUTILE LTD. AREA 1 PROJECT**

This notice serves to inform interested and/or Affected Persons/Parties (I & APs) about the Environment Social and Health Impact Assessment (ESHIA) conducted in relation to Sierra Rutile Limited's (SRL) Area 1 Project (SR Area 1).

SRL's Mining Lease Areas span the Moyamba and Bonthe Districts. The SRL operation in SR Area 1 has an existing Environment License and has undertaken two previous Environmental and Social Impact Assessment, in 2001 and an update in 2012. The primary mining process was dredge (wet) mining. In 2013, SRL, commenced an open cast (dry) mining operation, and a second one was commissioned in 2016. It is anticipated that, over time, dredge mining

will cease, and dry mining would be the primary mining method employed.

In accordance with a notification issued to SRL by the Environment Protection Agency of Sierra Leone (EPA-SL), SRL is undertaking an Environment, Social and Health Impact Assessment (ESHIA) and developing and Environmental, Social and Health Management Plan (SEHMP) for their current and proposed dry and wet mining activities, including the proposed expansion areas within SR Area 1. This includes the Gangama and Lanti deposits and other deposits within SRL's current operations in SR Area 1.

In compliance with the laws of Sierra Leone, the project needs to be planned, designed and implemented in a manner that minimizes the potential negative social and Environmental impacts and maximize the benefits. This will be achieved through the ESHIA Process that the Consultanat, SRK Consulting (SRK), an experienced environmental assessment consultancy with vast experience in environmental assessments/ management and related issues, have undertaken.

This assessment is now at the stage where the results are required to be presented to interested and affect parties (I&APs) for discussion and finalization. The assessment reports submitted to the EPA-SL on 29th March 2018, are to be presented to the I&APs during public disclosure meeting for discussion at the following locations and dates.
